4th Dimension Time Puzzles!

4D Cityscape's award winning puzzles allow you to build world famous cities alongside the fourth dimension of time. You first build a historical puzzle map that teaches you how the city used to appear. Next you build (on top) a modern day jigsaw map that teaches you how the city evolved. Lastly (in the third layer), you use 4D Time Poster to identify and place each building replica into the map according to time. This process is assembled in a time sequence according to the year each building was built.

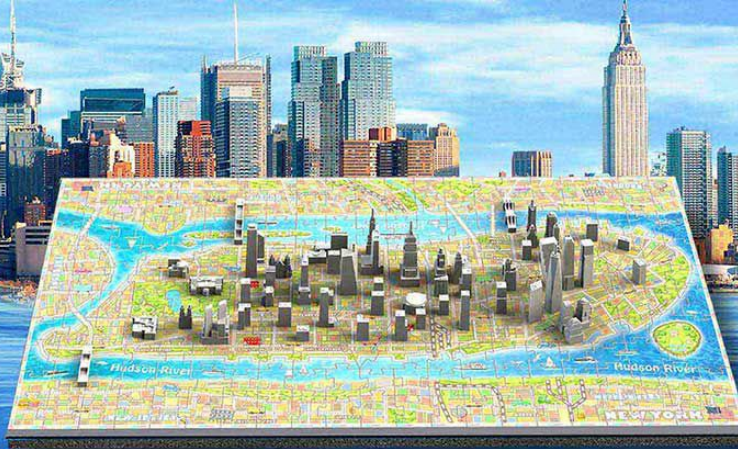

- ✓ Learn how a city develops and evolves
- ✓ Explore historic buildings and architectural styles
- ✓ Get to know the geography of an area
- ✓ Discover the defining moments in history
- ✓ Perfect for group play
- ✓ Makes a great souvenir & gift

**NEW
MINI SERIES!**

150-200

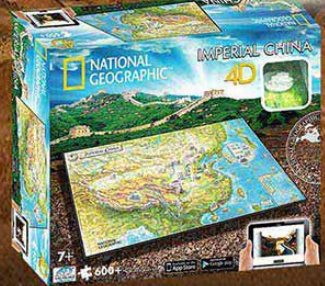

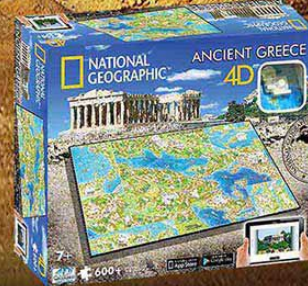

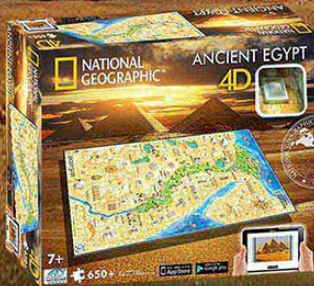

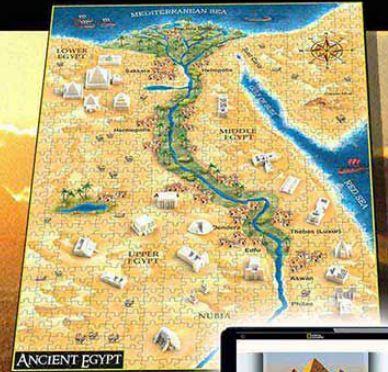

70000 4D Mini New York
70002 4D Mini London
70004 4D Mini Paris
70006 4D Mini Washington D.C.

4D Cityscape now introduces you our new mini puzzle series! You first assemble the first layer jigsaw puzzle that consists of over 150 puzzle pieces. You then insert all the buildings into the puzzle forming a complete miniature model of the city! Collect them all as you tour all the famous cities in the world!

NATIONAL GEOGRAPHIC™

Travel back into time and assemble ancient cities in your own home. The base layer consist of over 500 jigsaw pieces to form the landscape of the city. With our patented multi-layer play pattern, insert each 3D replica plastic models to complete the puzzle. Upon completion, download the free 4D National Geographic App, this will provide detailed information about each 3D structure, along with a fun Trivia Quiz to test your knowledge.
